Training and Technical Assistance

Subject: DVD New Para-educator training

Date: March 17, 2006

We would like to invite your district to participate in a new professional development project being developed by WVIA and NEIU. A summary of the project is listed below.

“The mission of NEIU is to provide timely and high quality professional development for our member districts. To support this mission, NEIU in partnership with WVIA is in the process of developing a series of professional development DVDs. These DVDs will be available on a variety of topics and range from 45 minutes to a little more than 1 hour in length. Their purpose is twofold:

- **To supplement the professional development workshops, presentations, and seminars held at NEIU.**
- **To provide an extension of the NEIU professional development experience to a time and place convenient to the district”.**

Elaine and I are developing a para-educator training DVD (for new paras) to be included in this project. In order to assure a true to life training experience we would like to have a small audience in the WVIA studio the day the DVD is being filmed.

If you have new paras who are interested in participating please fill out the attached registration form. We are closing registration at 20 individuals.

Thank you for your assistance.
